EQUITY PROTECTOR

Term Life Insurance with Living Benefits

Equity Protector is designed as simple-to-issue term life insurance that comes to terms with the tools needed most by homeowners – whether they are individuals, couples or families, and regardless of age or certain health conditions. These include:

- Death benefits sufficient to help pay off a mortgage or pay for other family expenses (children's education, etc.).
- Accelerated living benefits to replace lost income, pay medical costs, pay for assisted living care, etc.
- Optional riders: Waiver of Premium, Accidental Death Benefit.

KEY FEATURES

- Pre-decision underwriting and Instant Decision on eligible applications
- Issues ages 18-75 - including 30-year term issued through age 55
- Level term periods of 10, 15, 20, or 30 years
- Face amounts from \$50,000 - \$300,000
- Accelerated Living Benefits Rider available without additional premium (Classic 1), where approved in state of issue.
- Optional riders include Waiver of Premium, Accidental Death Benefit (Classic 1)

FEATURES and BENEFITS

Term life insurance product provides a fixed period where the payments (premiums) are guaranteed to be level. The Equity Protector offers a choice of a 10 year, 15 year, 20 year, or 30 year guaranteed level term period. After this initial period, the premiums will increase annually, as the insured ages, through their 95th birthday.

- A decreasing term life insurance rider may be allowed on the permanent policy, so long as the total face amount and risk class are not increased. If the term policy is 100,000 or greater, the permanent policy must be at least 25% of the total insurance amount of the converted policy. If the term policy is less than 100,000, the permanent policy must be at least 50% of the total insurance amount of the converted policy, but no less than the minimum base amount required in the UL policy.
- The conversion may take place prior to and including the Last Day to Convert shown on each policy schedule page. The Last Day to Convert will vary depending upon the policy term period.
- The policy can be converted to a permanent life insurance policy offered by GPM Life, for which a comparable underwriting class exist.
- The product is not eligible for post issue rate class improvement, including changes in tobacco class.

OPTIONAL RIDERS

WAIVER OF PREMIUM (WPD)

Issue Age 18 – 59

Size Limit Same as policy

- This rider allows the Owner to apply for a waiver of the policy and rider premium payments if the Insured is totally and continually disabled for six months. Premiums are not retroactively waived.
- Coverage under this rider will cease following the Insured's 65th birthday.
- The premium is calculated on the total face amount of the Primary Insured and any additional Insureds.

ACCIDENTAL DEATH BENEFIT (ADB)

Issue Age 18 – 60 (Classic 1)

Size Limit Flat amount equal to lesser of base face amount or \$200,000

INCLUDED RIDER: Accelerated Living Benefit (ALBR)

NO Additional Premium

This rider is automatically included in the policy with no additional premium (Classic 1). Up to 100% of the Death Benefit can be accelerated. However, the benefit payment will be less than the accelerated amount. Accelerated Death Benefits are based on the present value of the death benefit the Owner requests, as well as the Insured's life expectancy.

TERMINAL ILLNESS (TIALB)

Terminal Illness means that the Insured has a medical condition, resulting from bodily injury or disease, or both, which is expected to result in the death of the Insured within 24 months of diagnosis.

This rider allows the Policyowner to accelerate up to 100% of the death benefit.

The policy's benefit, values and premiums will be reduced in proportion to the amount of death benefit that was accelerated.

Benefits paid out under this rider may be subject to taxation. Some rider provisions differ by state.

State Variation FLORIDA – Terminal Illness

- A. Death must be expected to occur within 12 months.
- B. A benefit can be accelerated only one time.

CHRONIC ILLNESS (CHALB)

Chronic Illness means that the Insured is unable to perform at least 2 of the 6 activities of daily living without substantial assistance or the Insured has a severe cognitive impairment. The 6 activities of daily living are bathing, continence, dressing, eating, toileting, and transferring.

This rider allows the Policyowner to annually accelerate up to 24% of the initial policy death benefit.

Each year, the Insured's Chronic Illness will have to be re-certified by a physician.

The policy's benefit, values and premiums will be reduced in proportion to the amount of death benefit that was accelerated.

Benefits paid under this rider, if approved, will be a fraction of the death benefit accelerated, and will depend on such factors as nature and severity of the health condition and the change in remaining life expectancy. The smaller the change in remaining life expectancy, the lower the payment. The larger the change in life expectancy, the higher the payment.

Benefits paid out under this rider may be subject to taxation. Some rider provisions differ by state.

State Variation FLORIDA – Chronic Illness

- A. A benefit can be accelerated only one time.

CRITICAL ILLNESS (CRALB)

Critical Illness means that the Insured has been diagnosed with one of the following health conditions:

- Heart Attack – the death of a portion of the heart muscle resulting from inadequate blood supply to the relevant area. It does not include angina or the chance findings of EKG changes indicative of a previous heart attack.
- Stroke (not including transient ischemic attacks).
- Cancer – there must be one or more malignant tumors present. The following conditions are not included: pre-malignant lesions, benign tumors, polyps, or skin cancer (except for invasive malignant melanoma).
- End Stage Renal Failure – chronic irreversible and total failure of both kidneys which requires renal transplantation or regular renal dialysis.
- Major Organ Transplant – this includes transplant of a heart, lung, liver, kidney, pancreas or bone marrow.
- Amyotrophic Lateral Sclerosis (ALS).
- Blindness – permanent and uncorrectable loss of sight in both eyes resulting from diabetic retinopathy.
- Paralysis – complete and permanent loss of use of 2 or more limbs due to neurological injury producing paralysis resulting from trauma, CVA, polio, ALS, multiple sclerosis, or Guillain-Barre syndrome.

The policy's benefit, values and premiums will be reduced in proportion to the amount of death benefit that was accelerated.

No payment will be made for a Critical Illness arising during the first 30 days the policy is in force unless it is caused by an accidental injury.

Benefits paid under this rider, if approved, will be a fraction of the death benefit accelerated, and will depend on such factors as nature and severity of the health condition and the change in remaining life expectancy. The smaller the change in remaining life expectancy, the lower the payment. The larger the change in life expectancy, the higher the payment.

Benefits paid out under this rider may be subject to taxation. Some rider provisions differ by state.
